

DAEMON POX RIDERS OF NURGLE

Daemon Pox Riders form the vanguard of the Plague Lord's daemon armies. Consisting of repulsive Plaguebearers mounted on ravenous and wide-mawed Daemon Plague Toads, they crash into the ranks of the foe like bloated cannonballs.

DESCRIPTION

A unit of Daemon Pox Riders of Nurgle has any number of models, each armed with a Plaguesword.

MOUNT: This unit's Plague Toads each attack with their Grasping Tongue and Yawning Maw.

FLY: This unit can fly.

ABILITIES

Bloated Flesh: Most weapons simply slide harmlessly through the bloated, abscess-riddled flesh of a Daemon Plague Toad with little effect, the foul bulk of the thing swallowing up blades and arrows harmlessly.

Roll a dice each time you allocate a mortal wound to a model in this unit. On a 4+, that mortal wound is negated.

Cloud of Flies: Thanks to their odious nature, Pox Riders attract great clouds of flies that buzz about them, obscuring them from view.

Subtract 1 from hit rolls for attacks made with missile weapons that target this unit.

Locus of Fecundity: Pox Riders are a mainstay of many a legion of Nurgle, their powers amplified by Nurgle's chosen leaders.

You can re-roll save rolls of 1 for attacks that target this unit while this unit is wholly within 14" of a friendly **NURGLE HERO**.

Rot-eaters: A Daemon Plague Toad's jag-toothed maw yawns impossibly wide as the abomination prepares to devour its victim.

If the unmodified hit roll for an attack made with this unit's Yawning Maw is 6, that attack inflicts 2 hits on the target instead of 1. Make a wound and save roll for each hit.

SUMMON DAEMONS OF NURGLE

1 unit of 3 Daemon Pox Riders of Nurgle can be summoned to the battlefield using the Summon Daemons of Nurgle battle trait for 21 Contagion points.
