Equipment Price List

The following tables show the price to buy equipment during the campaign, not when you create your party – those prices are listed in the Party Rule Book.

Remember to check the Equipment Rules for restrictions. Your party or model may not be able to purchase/use certain equipment. Note that Gromril/Hell-forged/Ithilmar weapons are found under the Special Rules section of the Equipment Rules.

Some price values will be displayed as a multiplier. Simply take the price of the normal weapon and times it by the number shown.

Rarity

Whenever a Hero wishes to buy an item with a Rarity value, they must roll 2D6. After adding any relevant modifiers, the total must be equal to or more than the Rarity value of the item. If lower, the item cannot be purchased.

Only one such test can be made per Hero per Trade Phase.

Selling Equipment

Items can be sold for half the purchase price. In the case of equipment with a variable price, the item can only be sold for half the non-random purchase price.
