## FOREWORD & DISCLAIMER

Welcome to this compilation of rules, intended to allow people to use their Horus Heresy armies with the 40k 8th Edition ruleset.

We've tried to keep the structure and arrangement of units and armies the same as they have been in previous versions of 30k, but using the 8ed rules system. If rules for a unit exist in 8ed, we've used them unchanged. When porting over rules from 7ed, we've tried to use equivalent 8ed rules wherever possible, and only write completely new material where necessary. We appreciate any input on what does and doesn't work, or what could be improved. This is intended to be a living document, updated regularly based on community playtesting.

No copyright infringement is intended to any of the many, many GW trademarks we've liberally used in this document. We're all huge fans of Warhammer 40k and 30k and the setting GW has created, and this is our attempt to help out the player base and provide a common structure for Heresy players who want to play 8ed, at least until an official supplement is released. We make no claim to ownership over anything included in this document.

Compiled by Grifftofer and ArbitorIan with contributions by Mounty\_Chris, Shas'va, Darog, Chainmachete and Magos\_Dominus. With thanks to the members of Heresy 30k, HATE Club and Dakkadakka for suggestions and playtesting.

# LEGION I - DARK ANGELS

The Dark Angels were the first of the Emperor's Space Marine Legions, and in their earliest incarnation fought as the personal army of the Master of Humanity in the dawning years of the Great Crusade and in the shadowed campaigns that preceded it. As the prototype of what were to become the Legiones Astartes, they served both as the template for the more specialised Legions that were to come after them and a standard by which these successors would be measured. Unyielding, technologically capable, ruthless and insular, the Dark Angels were a powerful and highly independent Legion, used to operating on its own to conduct large scale campaigns and compliance actions.

## Legion Traits

If your army is Battle-forged, all **DARK ANGELS INFANTRY**, **BIKER** and **DREADNOUGHT** units in a detachment gain the following Legion Traits. Note due to their nature, **CYBERNETICA CORTEX**, **THALLAX** and **SERVO-AUTOMATA** units are the exception and do not benefit from Legion Traits.

- **Mastery of the Blade:** When fighting an enemy in the Fight phase with the same Weapon Skill, and equipped with any weapon modelled as a sword (chainsword, combat blade, terrain greatword, etc), a model with this Trait may add 1 to their Hit rolls.
- **Covenant of Death:** If at the end of the game, the opposing force has a greater number of units remaining than an army that includes a **DARK ANGELS** detachment, the opposing force gains +1 VP.

## Legion Wargear

**DARK ANGELS** models have access to the following wargear:

- Any model with access to the *Melee Weapons* list may choose a Calibanite warblade as their choice from the list.
- Any **CHARACTER** with access to the *Melee Weapons* list may choose a Terranic greatsword as their choice from the list.
- Any **ASTARTES** unit with access to Plasma guns may replace these with Plasma repeaters. If this is chosen, all such weapons in the unit must be replaced.
- Any **ASTARTES** unit equipped with grenade launchers or missile launchers may make use of the stasis shells stratagem.
- Any **ASTARTES** or **DREADNOUGHT** unit with access to Heavy bolters or Twin heavy bolters may take Molecular acid shells as an additional choice when firing the weapon. If this is chosen, all such weapons in the unit must be upgraded.
- In addition, a model in a **DARK ANGELS** detachment may choose to take the **Pyrix Extasis** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **DARK ANGELS** Warlord may choose the following Warlord trait:

- **Calibanite Hunter:** Add 1 to your Warlord's Attacks and Strength characteristic each time he slays an enemy **CHARACTER**, **MONSTER** or **TITANIC** model.

WARGEAR	DESCRIPTION					
Pyrix Extasis	<b>RELIC.</b> The bearer of the Pyrix may open it once per battle, at the start of any Fight phase. Until the end of the turn all enemy units suffer -1Ld.					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Calibanite warblade	Melee	Melee	+1	-3	1	-
Heavy bolter (molecular acid shells)	36"	Heavy 3	*	-D3	1	This weapon wounds on a 2+, unless it is targeting <b>VEHICLES</b> , in which case it wounds on a 6+.
Plasma repeater	When attacking with this weapon, choose one of the profiles below.					
- Standard	18"	Rapid Fire 1	6	-2	1	-
- Supercharge	18"	Rapid Fire 1	7	-2	2	On a hit roll of 1, the bearer is slain after all this weapons shots have been resolved
Terranic greatsword	Melee	Melee	+2	-3	2	Each wound roll of 6+ inflicts an additioal mortal wound on the target unit.
Twin heavy bolter (molecular acid shells)	36"	Heavy 6	*	-D3	1	This weapon wounds on a 2+, unless it is targeting <b>VEHICLES</b> , in which case it wounds on a 6+.

# Legion Rites of War

## RAVENWING PROTOCOL

The Ravenwing protocol, which focused on the use of gray-model units and all-terrain bikes, had its origins in early Astartes tactics for rapid-moving search and destroy formations, some of which dated back to the nomadic war clans of Pre-unification Terra.

### Advantages:

- **Knights Commander:** **CHARACTERS** in this detachment may re-roll Wound rolls in the Fight phase against enemy models with a Toughness characteristic of 5 or more that do not have the **VEHICLE** keyword.
- **Search & Destroy:** Units with the **LAND SPEEDER** or **BIKER** and **FLY** keywords in this detachment can move off of the battlefield in the movement phase if the entire unit can reach a table edge. When this happens, the unit is placed in reinforcements and gains the **Flanking Manoeuvres** ability (this replaces the **Sky Hunters** ability).
- **Flanking Manoeuvres:** During deployment, you can set up this unit moving around the flanks instead of placing it on the battlefield. At the end of any of your Movement phases the unit can join the battle - set it up so that all models in the unit are within 7" of a battlefield edge of your choice and more than 9" from enemy models.
- **Hunt them Down:** All units in this detachment add 1" to their consolidation moves.
- **Scour the Land:** **CHARACTERS** in this detachment can take rad grenades.

### Drawbacks:

- This rite may only be taken by an Outrider detachment.
- **Iron Knights:** Legion Sky Hunter Squadrons and Legion Outrider Squadrons must be taken as the compulsory Fast Attack choices in this detachment, and gain the Objective Secured ability. **CHARACTERS** in this detachment must have the **BIKER** keyword.
- This detachment may not include any Troops choices.
- Any unit in this detachment without the **BIKER** or **VEHICLE** keyword must begin the game transported in a **VEHICLE**.
- Any Vehicle in this detachment must have the **FLY** keyword.
- Your army may only include a Super-heavy or Super-heavy Auxiliary detachment if all the units within it have the **FLY** keyword.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units without the **DARK ANGELS** keyword.

## IRONWING PROTOCOL

This protocol was developed in the very earliest days of the Great Crusade, when Astartes were used to exterminate the most dire threats to Mankind. Later variants of this protocol would seek to combine the power of the Legiones Astartes with newly designed armoured units.

### Advantages:

- **Interlocking Fire:** Any **VEHICLES** in this detachment that are bought as part of a squadron can add 1 to Hit rolls in the Shooting phase when the entire squadron fires at the same target.
- **Exterminators:** Any **INFANTRY** units in this detachment can add 1 to Wound rolls with Pistol, Grenade or Rapid Fire weapons against enemy units within 12". This has no effect on weapons with a fixed Wound value.
- **The Dust of Untold Worlds:** **VEHICLES** in this detachment (except Flyers or **DREADNOUGHTS**) may re-roll Advance moves.
- **Goliaths of War:** **DREADNOUGHTS** in this detachment may re-roll failed Wound rolls of 1 against **VEHICLES**.

### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- Any **INFANTRY** units in this detachment must be transported in a **VEHICLE** which does not have the **FLY** keyword.
- At least half the units in the army must be **VEHICLES** which do not have the **FLY** keyword.
- If all **VEHICLES** in this detachment without the **FLY** or **DREADNOUGHT** keywords are completely destroyed at the end of the battle, your opponent gains an additional victory point.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units without the **DARK ANGELS** keyword.

# Legion Stratagems

## WEAPONS OF OLD NIGHT

Dark Angels Stratagem

Use this Stratagem when declaring the target of a **DARK ANGELS** unit during the Shooting or Fight phases. Improve the AP of this unit's weapons by 1 (AP-2 becomes AP-3 etc.).

## STASIS SHELLS

Dark Angels Stratagem

Use this Stratagem just before a **DARK ANGELS** model from your army attacks an enemy Character with a grenade launcher or missile launcher. Make a single hit roll for the weapon this phase, adding 1 to the result. If the shot hits, the target suffers D3 wounds.

## LEGION III - EMPEROR'S CHILDREN

The Emperor's Children have always striven to be exemplars above all others in the arts of war; paragons of martial virtue and excellence, scorning those who do not meet their own, perhaps unattainable, standards. This led them to seek perfection in war as a fluid, lightning-quick force whose battles were preordained victories brought about by a combination of acute strategic planning and flawless execution.

### Legion Traits

- **Flawless Execution:** Models with this ability always fight first in the Fight phase even if they didn't charge. If the enemy has units that have charged, or that have a similar ability, then alternate choosing units to fight, starting with the player whose turn is taking place.
- **Duellist's Pride:** If in base contact with an enemy **CHARACTER**; an **EMPEROR'S CHILDREN CHARACTER** must direct all of his attacks against the enemy **CHARACTER**.
- **Martial Pride:** **ASTARTES** units with this ability suffer a -1 penalty to Leadership during the Morale phase if an enemy **CHARACTER** killed a friendly **EMPEROR'S CHILDREN CHARACTER** within 6" during the preceding Fight phase.

### Legion Wargear

**EMPEROR'S CHILDREN** models have access to the following wargear:

- Any **CHARACTER** can take Sonic shriekers.
- Any model with access to a Power fist can instead take a Phoenix spear.
- In addition, a model in an **EMPEROR'S CHILDREN** detachment may choose to take the **Lucid Blade** instead of a relic from the Legiones Astartes list.

### Legion Warlord Trait

An **EMPEROR'S CHILDREN** Warlord may choose the following Warlord trait:

- **Lust for Glory:** Your Warlord can perform a Heroic Intervention if the enemy is within 6" (rather than 3") and can move up to 6" when doing so.

WARGEAR	DESCRIPTION					
Sonic shrieker	Enemy models in base contact with a model equipped with Sonic shriekers suffer a -1 penalty to hits rolls during the Fight phase.					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Charnabal broadsword	Melee	Melee	+1	-2	2	If you roll a 6+ to wound with this weapon that hit is resolved at AP -3.
Deathscreeam	8"	Pistol D6	2	0	1	This weapon automatically hits its target. This weapon may only be used once per battle. If you roll a 6+ to wound with this weapon that hit is resolved at AP -3.
Fireblade	Melee	Melee	+1	-3	2	If you roll a 6+ to wound with this weapon, it inflicts a mortal wound in addition to its usual damage.
Firebrand	15"	Pistol 2	5	0	3	You can re-roll failed wound rolls with this weapon.
Lucid Blade	Melee	Melee	+1	-4	1	<b>RELIC.</b> When allocated to the enemy Warlord, each wound from this weapon is a mortal wound.
Master-crafted thunder hammer	Melee	Melee	x2	-3	4	When attacking with this weapon, you must subtract 1 from the hit roll.
Phoenix spear	Melee	Melee	+1	-2	1	During the first Fight phase of each combat this weapon has AP -3.
Plasma grenades	6"	Grenade D6	4	-1	1	-
The cacophony	36"	Heavy 2	6	-1	1	Each wound from this weapon is counted as 2 wounds for the purposes of Morale tests.
The laer blade	Melee	Melee	User	-3	2	If you roll a 6+ to hit with this weapon, it inflicts a mortal wound in addition to its usual damage.

Legion Rites of War

THE MARU SKARA

To the Emperor’s Children, war was a matter of perfection incarnated in violence, intent and action. Named after one of the most difficult strikes in the lore of their duelling cults, this formation called for a precisely-timed feint designed to engage an opponents guard so that a second fatal blow could be dealt against it.

Advantages:

- **Familiar Formation:** This detachment generates 1 more command point than normal.
- **The Open Blade:** Any models who start the first turn deployed on the battlefield may add 1 to their movement, Advance and charge distances.
- **The Hidden Blade:** Between 1 and 3 Elites or Fast Attack units in this detachment must be given the **Flanking Manoeuvres** ability and must be deployed using it. Before the start of the first battle round, write a turn number on a note and place it face down in plain sight. All of the above units must be deployed on the noted turn, at the end of the movement phase.
- **Flanking Manoeuvres:** During deployment, you can set up this unit moving around the flanks instead of placing it on the battlefield. At the end of any of your Movement phases the unit can join the battle - set it up so that all models in the unit are within 7” of a battlefield edge of your choice and more than 9” from enemy models.

Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- This detachment cannot include any **ARTILLERY** or **TITANIC** units.
- This detachment must include a **CHAMPION** as a compulsory HQ choice.
- If the mission being played awards victory points for slaying the enemy warlord and you do not achieve this, the enemy player gains 1 additional victory point.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units without the **EMPERORS CHILDREN** keyword.

3RD COMPANY ELITE

In the aftermath of the Dropsite Massacre the Primarch Fulgrim withdrew from his Legion for long months. Many passions long held in check by duty and devotion were unleashed, and experiments begun at the earliest stages of the Legion’s fall found a foothold amongst willing subjects.

Advantages:

- **Chosen of Vairosean:** Kakophoni units in this detachment may ignore the -1 hit penalty for moving and firing heavy weapons.
- **Sonic Assault:** **INFANTRY** units in this detachment (except Terminators) may take sonic shriekers.

Drawbacks:

- This rite may only be taken by a Spearhead detachment.
- All units in this detachment must be **TRAITORS**.
- Your army may not include any units without the **EMPERORS CHILDREN** keyword.

# LEGION IV - IRON WARRIORS

The Iron Warriors are the grim-faced, cold-hearted masters of the science of war, the exemplars of strength and discipline turned exclusively to the systematic destruction of the enemy. More so than in any other Legion, the life of each warrior is secondary to his duty, as much a resource to be expended in the relentless calculus of war as a bolt shell or a lascannon charge. Guided by such doctrines, the Iron Warriors are amongst the most relentless and dogged siege warriors in the ranks of the Legiones Astartes.

## Legion Traits

- **Ruthless Discipline:** Units with this ability ignore casualties from shooting for the purposes of taking Morale tests.
- **Wrack & Ruin:** All Grenade type weapons thrown by models with this ability inflict +1 Damage against **BUILDINGS**.
- **The Bitter End:** In missions where a dice roll is used to determine game length the **IRON WARRIORS'** opponent may choose to add 2 to the result of the dice.

## Legion Wargear

**IRON WARRIORS** models have access to the following wargear:

- A **PRAETOR** can be upgraded to a Warsmith, gaining the **WARSMITH** keyword, +1 to its Leadership value and the Shatter Defences ability. A Warsmith may take a servo-arm, in which case it gains the Battlesmith ability.
- Any **WARSMITH**, **TECHMARINE** or **FORGE LORD** may take a cortex controller.
- Any model with a Heavy bolter or Twin heavy bolter can take shrapnel bolts.
- In addition, a model in an **IRON WARRIORS** detachment may choose to take the **Blind Helm of the Black Judges** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

An **IRON WARRIORS** Warlord may choose the following Warlord trait:

- **Cold & Bitter:** Friendly **IRON WARRIORS** units within 6" of your Warlord automatically pass Morale tests.

# Legion Rites of War

## THE IRONFIRE

A siege doctrine, the Ironfire facilitates the rapid capture of Loyalist strongholds without the need to commit an entire Grand Company, thus serving their orders to topple Loyalist fortresses ahead of the march on Terra.

### Advantages:

- **Rolling Bombardment:** **ARTILLERY** units in this detachment which target an enemy unit within 12" of a friendly **IRON WARRIORS** unit in the Shooting phase may re-roll to hit. In addition, **ARTILLERY** units in this detachment which target an enemy unit within 6" of a friendly **IRON WARRIORS** unit may re-roll the dice used to generate the number of shots.
- **Ride the Ironfire:** Units within 6" of an enemy model may re-roll Morale tests.

### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- In missions which have an Attacker and a Defender, your army must be the Attacker.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

## THE HAMMER OF OLYMPIA

Masters of siege warfare and attrition tactics, this formation was designed to carry out an unyielding close range attack and shatter the strongest enemy defense line under the weight of armoured warriors and a hurricane of fire.

### Advantages:

- **Familiar Formation:** This detachment generates 1 more command point than it normally would.
- **Sheathed in Steel:** **VEHICLES** (except Flyers) in this detachment add 1 to their Wounds characteristic.
- **Siege Engineers:** This detachment has one more Heavy Support slot available than normal.
- **Hail of Fire:** Your army gains access to the Hail of Fire Stratagem.

### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- This detachment must include either a **WARSMITH** or a **SIEGE BREAKER** as a compulsory HQ choice.
- This detachment must take an additional compulsory Troops choice.
- This detachment must take more Heavy Support choices than Fast Attack choices.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

Use this Stratagem after deployment, but before the start of the first game round. Select a visible point on the battlefield and roll a D6 for every unit within D6" of that point. Subtract 1 from the result if the unit being rolled for is a **CHARACTER**. On a 4+, the unit being rolled for suffers D3 mortal wounds.

#### WARGEAR OPTIONS

- Perturabo can take forgebreaker.

#### ABILITIES

**The Logos:** Perturabo has a 3+ invulnerable save and is immune to any enemy ability or power that lowers his hit rolls.

**Sire of the IV Legion:** You can re-roll any failed hit and wound rolls with friendly **IRON WARRIORS** units within 6" of Perturabo. While Perturabo is on the table, **IRON WARRIORS** units may re-roll failed Morale tests.

**Relentless Strategist:** All **TRAITOR** units in the same army as Perturabo may re-roll charge distances while in the enemy deployment zone.

**Teleport Strike:** During deployment, you can set up Perturabo and/or any friendly **IRON WARRIORS TERMINATOR** unit in a teleportarium chamber instead of deploying it on the battlefield. At the end of any of your Movement phases this/these unit(s) can perform a teleport strike - set it/them up anywhere on the battlefield that is more than 9" away from any enemy models.

**Wrack & Ruin:** All Grenade type weapons thrown by models with this ability inflict +1 Damage against **BUILDINGS**.

**Lord of War:** If two models with this ability are participating in the same combat during the Fight phase, they must attempt to move within 1" of each other and direct attacks against each other. Additionally, any abilities which allow re-rolls to hit or to wound in the fight phase may not be used when targeting this model (this does not affect abilities attached to weapon profiles). All damage suffered by this model is reduced by 1 (to a minimum of 1).

# LEGION V - WHITE SCARS

A bolt of lightning in clear skies, a sudden gale from an unexpected quarter - the White Scars are war's sudden and merciless onslaught. Swift action and joy for the rush of combat and clash of blades are the hallmarks of their battles, tempered by a quiet and hidden wisdom that few took the time to uncover. They were the Great Crusade's pathfinders, the bleak wind that ran ahead of its serried armies culling the weak and harrying the strong that they might fall more easily to those who followed.

## Legion Traits

- **Swift Action:** If a model with this ability moves its full movement distance in the Movement phase, it can re-roll wound rolls of 1 in the following Shooting and Fight phases; and gains the benefit of cover, even if not in terrain.
- **To Laugh in Death's Face:** A detachment containing **WHITE SCARS** models must take an additional compulsory Fast Attack choice.

## Legion Wargear

**WHITE SCARS** models have access to the following wargear:

- Any model with access to the *Melee Weapons* list may take a Power glaive as it's choice from the list.
- Any **PRAETOR** may take a Cyber-hawk.
- In addition, a model in a **WHITE SCARS** detachment may choose to take the **Parthinian Serpent** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **WHITE SCARS** Warlord may choose the following Warlord trait:

- **Deadly Hunter:** Roll a dice each time your Warlord finishes a charge move within 1" of an enemy unit; on a 4+ that unit suffers a mortal wound.

WARGEAR	DESCRIPTION					
Cyber-hawk	A cyber-hawk is represented by a small token or model which plays no other role in the game. The cyber-hawk may be placed anywhere on the table and may be moved elsewhere at the beginning of the owner's turn. Any <b>WHITE SCARS INFANTRY</b> unit targeting any enemy unit within 6" of the cyber-hawk in the shooting phase may re-roll hit rolls of 1. Any <b>WHITE SCARS INFANTRY</b> unit charging an enemy unit within 6" of the cyber-hawk may re-roll the charge distance.					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Parthinian Serpent	24"	Rapid Fire 1	6	-2	1	<b>RELIC.</b> This weapon can target a <b>CHARACTER</b> even if it is not the closest enemy unit.
Power glaive	When attacking with this weapon, choose one of the profiles below.					
- One handed	Melee	Melee	User	-2	1	-
- Two handed	Melee	Melee	+1	-3	1	When attacking with this weapon, the wielder must make one less Attack than normal.

## Legion Rites of War

### CHOGORIAN BROTHERHOOD

Favoured by the Chogorian recruits to the V Legion as the ideal fighting body of troops, this formation was composed of a body of Legionaries mounted entirely on fleet warbikes or in other transports, and were ideal for harrying campaigns or lightning strike warfare.

#### Advantages:

- **Ride like the Wind:** Legion Sky Hunter Squadrons and Legion Outrider Squadrons gain the Objective Secured ability.
- **Lightning Strike:** Any **INFANTRY** units in this detachment in which no model carries a Heavy weapon, or any units in this detachment with the **BIKER** keyword, may fall back and charge in the same turn. Any **INFANTRY** units in this detachment gain the **Flanking Manoeuvres** ability.
- **Flanking Manoeuvres:** During deployment, you can set up this unit moving around the flanks instead of placing it on the battlefield. At the end of any of your Movement phases the unit can join the battle - set it up so that all models in the unit are within 7" of a battlefield edge of your choice and more than 9" from enemy models.

#### Drawbacks:

- This rite may only be taken by an Outrider detachment.
- This detachment must take Legion Sky Hunter Squadrons or Legion Outrider Squadrons as compulsory Fast Attack choices.
- This detachment must contain the Warlord, who must have the **BIKER** keyword.
- Any unit in this detachment without the **BIKER** or **VEHICLE** keyword must be transported in a **VEHICLE** or deployed using the **Flanking Manoeuvres** ability.
- During deployment, any **VEHICLE** with more than 10 Wounds must be set up in the Second Wave instead of being placed on the battlefield. At the end of your second Movement phase these units can join the battle - set them up so that all models in the unit are within 7" of your rearmost battlefield edge and more than 9" from enemy models.

### THE SAGYAR MAZAN

Within the White Scars Legion, disobedience or catastrophic failure is often punished with death. Occasionally, this punishment may be commuted to exile, and these 'Sagyar Mazan' are fated to seek out an honourable death and in so doing, wash away the stain of dishonour.

#### Advantages:

- **Death Seekers:** If the mission being played awards Victory Points for destroying units, roll a dice for each unit in this detachment that is destroyed at the end of the game; on a 4+ it does not yield any victory points.
- **The Serpent's Eye:** **ASTARTES** units in this detachment ignore morale checks in a turn in which they either charged or were charged by an enemy unit.

#### Drawbacks:

- This rite may only be taken by a Patrol or Battalion Shattered Legions Detachment.
- All units in this detachment must be **LOYALISTS**.
- This detachment cannot contain more **VEHICLES** units than **INFANTRY** units.

# LEGION VI - SPACE WOLVES

Renowned for both their savagery and their obedience to the will of the Emperor, the Space Wolves Legion long stood apart from the other Legiones Astartes. Distant and aloof, they were separated not only by their bellicose demeanour, but by an almost impenetrable web of self-generated myth and allegory which guarded well the Legion's secrets. The unique gene-seed of the Space Wolves, altered by the inclusion of the Canis Helix, made them more animalistic than their fellow Legiones Astartes - uncommonly talented hunters and ferocious killers. But, to their detractors, it made them more beasts than men.

## Legion Traits

- Bestial Savagery:** If a model with this trait started the turn more than 1" from any enemy models, and either Charged or were Charged in the Charge phase, it can add 1 to Hit rolls made during the following Fight phase.
- Hunter's Gait:** Models with this trait may add 1" to their Heroic Intervention, Advance, Pile In and Consolidate moves.
- The Wolves of Fenris:** A detachment containing **SPACE WOLVES** units must include one model with the **PRAETOR** or **CENTURION** keyword for every 1000pts (or part). In addition, a **SPACE WOLVES** detachment cannot include models with the **CHAPLAIN**, **LIBRARIAN** or **PRIMUS MEDICAE** keywords. A **SPACE WOLVES** Battalion or Brigade detachment must always include two units of Grey Slayers as compulsory Troops choices, and a **SPACE WOLVES** Patrol, Vanguard, Spearhead or Outrider detachment must always include one unit of Grey Slayers as a Troops choce. This may affect which Rites of War the detachment can use.

## Legion Wargear

**SPACE WOLVES** models have access to the following wargear:

- Any **CENTURION** without a current Consul upgrade can be upgraded to a priest of fenris - either a Speaker of the Dead or a Caster of Runes.
- Any **CHARACTER** with access to the *Melee Weapons* list may choose to take a frost weapon as their choice from the list.
- Any **PRAETOR**, **SPEAKER OF THE DEAD**, **CASTER OF RUNES**, **PRAEVIAN**, **MASTER OF SIGNALS** or **FORCE LORD** may take Æther-rune armour.
- A Frost Weapon is any of the following weapons: frost axe, frost blade, frost claw or great frost blade.
- In addition, a model in a **SPACE WOLVES** detachment can choose **Burning Claws** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **SPACE WOLVES** Warlord may choose the following Warlord trait:

- Heroic Saga:** Add 1 to to your Warlord's Attacks and Strength characteristic each time he slays an enemy **CHARACTER**, **MONSTER** or **TITANIC** model.

WARGEAR	DESCRIPTION					
Æther-rune armour	This model gains +1 Wound and can attempt to Deny one psychic power in each psychic phase.

It knows the Smite power and two psychic powers from the Tempestas discipline.</li><li><b>Runic Matrix:</b> The caster of runes may re-roll the dice used when Denying a psychic power. Select a friendly <b>SPACE WOLVES INFANTRY</b> or <b>BIKER</b> unit within 3" of the Speaker of the Dead. If that unit contains a wounded model, it immediately regains D3 lost wounds. Legion Rites of War

- This detachment can only include 1 Heavy Support choice.

# LEGION VII - IMPERIAL FISTS

The legionaries of the VIIth are known as the stoic praetorians of Terra, the embodiment of all that the Great Crusade stands for. They are loyal, disciplined and methodical, and masters of both the attack and the defence. As the Imperium expands ever outwards, so the crusaders of the Imperial Fists are to be found on the very leading edge of Compliance. Then, in the wake of victory, the Imperial Fists construct mighty fortresses that are as much garrisons against recidivism as they are beacons of unification, the noblest of exemplars of the highest ideals and aspirations of humanity.

## Legion Traits

- **Unshakeable Defence:** Units with this trait ignore Morale checks while in cover.
- **Disciplined Fire:** Units with this trait add 1 to the Strength of their Heavy weapons when targeting enemy **VEHICLES**.
- **The Bitter End:** In missions where a dice roll is used to determine game length the **IMPERIAL FISTS**' opponent may choose to add 2 to the result of the dice.

## Legion Wargear

**IMPERIAL FISTS** models have access to the following wargear:

- Any **TERMINATOR** model can replace its combi-bolter with a Vigil-pattern storm shield.
- Any **CHARACTER** with access to the *Melee Weapons* list can take a solarite power gauntlet instead. (as a master crafted power fist)
- Any **TERMINATOR** unit may take Teleport transponders.
- Any **TERMINATOR** unit can replace a Heavy flamer with an Iliastus assault cannon.
- In addition, a model in an **IMPERIAL FISTS** detachment can choose the **Indomitan Mantle** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

An **IMPERIAL FISTS** Warlord may choose the following Warlord trait:

- **Blood & Honour:** You can add 1 to all hit and wound rolls made for this Warlord in the Fight phase when targeting enemy **CHARACTERS**.

WARGEAR	DESCRIPTION					
Indomitan mantle	<b>RELIC.</b> Any damage this model suffers is halved (rounding up).

Legion Rites of War

HAMMERFALL STRIKE FORCE

Originally conceived as a template for landing forces from the mighty Phalanx, a Hammerfall Strike Force is a concentration of elite, ship-borne units deployed for the purpose of enacting sudden and overwhelming boarding or landing actions against a foe that must be destroyed without mercy or quarter.

Advantages:

- **Landing Force:** Phalanx Warders can be taken as Troops choices in this detachment.
- **Teleport Array:** Any Imperial Fists Infantry unit in this detachment may take a teleportation transponder and gain the **Teleport Assault** ability.  
**Teleport Assault:** During deployment, you can set up this unit in the teleportarium chamber instead of placing it on the battlefield. At the end of any of your Movement phases this unit can perform a teleport assault - set it up anywhere on the battlefield that is more than 9” away from any enemy models.
- **Blinding Luminescence:** Any unit from this detachment that deploys via Teleport Assault gains the benefit of cover until their next turn. In addition, enemy units within 12” and line of sight of the unit must re-roll successful hits with ranged weapons against them for the rest of the battle round.

Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- During deployment, any **VEHICLE** must be set up in the Second Wave instead of being placed on the battlefield. At the end of your second Movement phase these units can join the battle - set them up so that all models in the unit are within 7” of your rearmost battlefield edge and more than 9” from enemy models.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units without the **IMPERIAL FISTS** keyword.

THE STONE GAUNTLET

The Imperial Fists favoured a style of warfare that combined interlocking defense with calulated bursts of relentless aggression. This formation turned the mass of the Legion’s breacher and warder squads into a grinding, implacable battering ram of force.

Advantages:

- **Defense Force:** Phalanx Warders can be taken as Troops choices in this detachment.
- **Resolve of Stone:** Units in this detachment equipped with Storm Shields or Boarding Shields add 1 to their Toughness characteristic, unless they Advanced or charged this turn.
- **Shield Charge:** Units in this detachment equipped with Storm Shields or Boarding Shields add 1 to their Attacks characteristic when they charge.

Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- Legion Breacher Squads must fill the compulsory Troops slots in this detachment.
- With the exception of **CHAMPIONS**, this detachment may only include one **CONSUL**.
- This detachment cannot include more Elites and Fast Attack choices combined than it has Troops choices.

Legion Stratagem

BOLTER DRILL  
Imperial Fists Stratagem

Use this Stratagem just before an **IMPERIAL FISTS INFANTRY** unit attacks in the Shooting phase. Each time you make a hit roll of 6+ for a model firing a 'bolt' weapon, that model can immediately make another hit roll using the same weapon at the same target (these bonus attacks cannot themselves generate further attacks).

# LEGION VIII - NIGHT LORDS

Even before the dropsite massacre, the Night Lords legion were renegade in all but name, having entirely devoted themselves to that arts of terror and murder. The legion's Primarch Konrad Curse is the master of the unheralded strike from the least anticipated quarter, an attack delivered with such brutality and wanton cruelty entire planetary populations were brought to their knees in abject surrender. Never given to mercy, few who oppose the Night Lords ever live to tell the tale, unless they are allowed by design to escape in order to sow the seeds of dread still further. Given the dark demeanour of the legion, it takes an equally ruthless leader to rein in its propensity for atrocity, at least until such time as it is called for.

## Legion Traits

- **From the Shadows:** In the first battle round of the game, **NIGHT LORDS** models may claim the Benefit of Cover, even when in the open. If they already are in cover, then the benefit of cover is increased to +2.
- **A Talent for Murder:** If there are more friendly models with this ability than enemy models in a combat at the start of the Fight phase, friendly models with this trait get can add 1 to their Hit and Wound rolls until the end of the Fight phase. When counting models on either side, models with the **JUMP PACK**, **BIKER** or **TERMINATOR** keywords counts as two models.
- **Nostraman Blood:** If an **ASTARTES** unit with this ability fails a Morale test, roll a D6; on a 4+, one additional casualty is caused.
- **Seeds of Dissent:** If a **NIGHT LORDS** Warlord is slain, every **ASTARTES** model with this ability in the same detachment reduces their Leadership by 1 for the rest of the battle round.

## Legion Wargear

**NIGHT LORDS** models have access to the following wargear:

- Any **TERMINATOR** unit may take Teleport transponders.
- Any model with access to the *Melee Weapons* list can take a Nostraman chainglaive instead.
- Any **CHARACTER** may take Trophies of judgement. If an enemy unit must take a morale test because of casualties caused by this character, they take that test at -1 Leadership.
- In addition, a model in a **NIGHT LORDS** detachment can choose the **Nostraman Mancatcher** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **NIGHT LORDS** Warlord may choose the following Warlord trait:

## Legion Rites of War

### HORROR CULT

For many in the VIII Legion, the betrayal in the Urgall Depression was the unstopping of a barely contained well of horrors. The worst affected were the Night Raptor squads, who flocked together in bodies that were as much cult as battlefield formation.

#### Advantages:

- **Familiar Formation:** This detachment generates 3 command points.
- **Raptor Cult:** Night Raptor squads must be taken as the compulsory Fast Attack choices in this detachment.
- **Beyond Judgement:** Any **ASTARTES** unit in this detachment may take Trophies of Judgement.
- **Talons of Fear:** Legion Kharybdis Assault Claws may be taken as Dedicated Transports in this detachment.

#### Drawbacks:

- This rite may only be taken by an Outrider detachment.
- All models in this detachment must have the **TRAITOR** keyword.
- **ASTARTES** models in this detachment must always declare a charge if there are non-**VEHICLE** units within 12" of them at the start of their Charge phase.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

### TERROR ASSAULT

The infamous speciality of the Night Lords was the Terror Assault, often conducted under conditions of complete darkness. Such attacks were not just designed to overwhelm the foe, but to sow gut-wrenching horror in its victims.

#### Advantages:

- **Familiar Formation:** This detachment generates 3 command points.
- **Terror Tactics:** Terror Squads must be taken as the compulsory Elites choices in this detachment..
- **Claw Assault:** Drop Pods may be taken as a Dedicated Transport.
- **Night Raider:** The army gains access to the Night Raider stratagem.

#### Drawbacks:

- This rite may only be taken by a Vanguard detachment.
- This detachment may only include one **CONSUL**.
- This detachment may only include one Heavy Support choice.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

#### NIGHT RAIDER Terror Assault Stratagem

Use this Stratagem at the start of the second battle round. The effects of the From The Shadows trait are extended until the end of this battle round. You may use this Stratagem again at the start of each battle round after this, but if you ever choose not to, then it may not be used again for the rest of the battle.

Use this Stratagem when a **NIGHT LORDS INFANTRY** unit is targeted by a shooting attack. For the rest of the phase, your opponent must subtract 1 from all hit rolls that target that unit.

# LEGION IX - BLOOD ANGELS

The Blood Angels, of all the warriors of the LEgiones Astartes, evidenced perhaps the greatest degree of transformation of their flesh from their human origins. The aggressive overwriting of the aspirant's gene-helix by the blood of their Primarch was capable of transforming the rad-scarred and twisted inhabitant's of Baal to create 'perfected' warriors; living icons of the physical ideal of the Legiones Astartes. In battle, the Blood Angels Legion was the incarnation of the Emperor's wrath upon those who rejected the gift of Unity, and their coming often nothing less than apocalyptic judgement delivered upon the guilty from on high.

## Legion Traits

- **Encarmine Fury:** **ASTARTES** units with this ability can add 1 to their Wound rolls in the Fight phase, but still fail to wound on a roll of 1.
- **Host of Angels:** A **BLOOD ANGELS** Detachment may not have more units in a detachment with the **VEHICLE** keyword than those with the **ASTARTES** keyword. Units from the the Dedicated Transport Battlefield Role are not included for when making this calculation. Additionally models must always consolidate the full 3" directly towards the nearest enemy model.

## Legion Wargear

**BLOOD ANGELS** models have access to the following wargear:

- Any model with access to a Volkite serpenta may instead take a Hand flamer.
- Any model with access to a Plasma pistol may instead take an Inferno pistol.
- Any **CHARACTER** with access to the *Melee Weapons* list may take a Blade of perdition.
- Any model with a Heavy flamer can replace it with an Iliastus assault cannon.
- Any **PREDATOR** can replace its Predator autocannon with a Twin iliastus assault cannon.
- In addition, a model in a **BLOOD ANGELS** detachment can choose the **Photonic Blade** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **BLOOD ANGELS** Warlord may choose the following Warlord trait:

- **Visage of Sanguinius:** Friendly **BLOOD ANGELS** units within 6" of your Warlord automatically pass Morale tests.

WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Blade of perdition	Melee	Melee	User	-3	2	Each Wound roll of 5+ with this weapon inflicts an additional Wound on the same enemy unit.
Iliastus assault cannon	24"	Heavy 6	6	-1	1	If three 1s are rolled when rolling to Hit with this weapon, the gun jams and all shots miss.
Photonic blade	Melee	Melee	+2	-5	1	<b>RELIC</b>

# Legion Rites of War

## THE DAY OF REVELATION

The IX Legion were famed for their ‘wars of ultimatum’ in which non-Compliant worlds would be offered one opportunity to embrace unification or face a ‘Day of Revelation’ in which they would suffer the fury of the Blood Angels unleashed.

### Advantages:

- **Cometh the Host:** Any **JUMP PACK** units in this detachment must arrive on the first turn of the game.
- **With Fire & Thunder:** Any units in this detachment that are deployed as reinforcements gain the benefit of cover until their next turn.
- **The Opening of the Seal:** Any **INFANTRY** units in this detachment that arrive from reinforcements may re-roll hit rolls in the following Shooting phase.

### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- Compulsory Troops and HQ choices in this detachment must have the **JUMP PACK** keyword..
- This detachment must include one compulsory Fast Attack choice, which must have the **FLY** keyword.
- This detachment may not include any **ARTILLERY** units.
- Your army may not include a Fortification Network detachment.

## THE DAY OF SORROWS

The Blood Angels were famed for their ability, when pressed, to stand against any that would overwhelm them, no matter the odds and no matter the foe. Such battles became known as ‘days of sorrows’, when few would stand against many and sell their lives dear, their names and deeds to be remembered eternally in the Legion’s rites.

### Advantages:

- **Resolute Defense:** All units in this detachment ignore negative modifiers to their Leadership. Additionally, they can re-roll failed Morale tests when in their own deployment zone.
- **Aura of Wrath:** Enemy models in combat with **BLOOD ANGELS ASTARTES** units in this detachment count their Leadership characteristic as one less than normal.
- **By Blood Sworn:** If a unit of **BLOOD ANGELS ASTARTES** from this detachment is at 50% or less of its starting size, the models within it may roll a dice for each wound suffered; on a roll of 6, they ignore the wound.

### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- **Bloody-Handed:** If in base contact with an enemy **CHARACTER**; a **BLOOD ANGELS CHARACTER** in this detachment must direct all of his attacks against the enemy **CHARACTER**.
- **To the Bitter Dregs:** If a unit of **BLOOD ANGELS ASTARTES** from this detachment is at 50% or less of its starting size at the end of the game, they count as being destroyed for the purposes of victory points.

# LEGION X - IRON HANDS

The Iron Hands are masters of the engines of war, wielding weapons and armoured tanks with the skill a master swordsman might a blade. Proud and relentless, the Legion has fought for many years at the forefront of the Great Crusade, and seen victories uncounted, though many have labelled them as callous and as inhuman as they manchinees they employ with such devastating skill.

## Legion Traits

- **Stand and Fight:** Units with this trait suffer a -1” penalty to Advance moves.
- **Rigid Tactics:** A detachment containing units with this trait cannot have more units with the **JUMP PACK** and **BIKER** keywords than units with the **INFANTRY** keyword (not including units that also have the **JUMP PACK** keyword).

## Legion Wargear

**IRON HANDS** models have access to the following wargear:

- Any **PRAETOR** can be upgraded to a Iron-father.
- Any **VEHICLE** can take Blessed Autosimulacra.
- In addition, a model in a **IRON HANDS** detachment can choose the **Grav Gauntlet** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **IRON HANDS** Warlord may choose the following Warlord trait:

- **Murderous Arsenal:** Each time you roll a hit roll of 6+ for your Warlord, make one extra attack at the same target using the same weapon (these bonus attacks cannot themselves generate any further attacks).

WARGEAR	DESCRIPTION					
Blessed Autosimulacra	At the start of each Movement phase roll a D6, on a 5+ regain 1 lost wound.

## Legion Rites of War

### THE HEAD OF THE GORGON

The Iron Hands' preference for close-range, brutal engagements, where their relentless firepower could be brought to its fullest effect, was exemplified by this tactic. The enemy would be brought to battle and held in place while mechanised elements encircled them.

#### Advantages:

- **Chosen Ground:** **IRON HANDS INFANTRY** units in this detachment may re-roll Morale tests while inside their own deployment zone.
- **War-relics:** Any model in this detachment which can be armed with a flamer may instead be armed with a graviton gun. In addition, **VEHICLES** in this detachment gain the **Blessed Autosimulcra** ability.
- **Blessed Autosimulcra :** At the start of each Movement phase roll a D6, on a 5+ regain 1 lost wound.
- **Iron Scions:** This detachment may include units of Castellax or Vorax battle-automata as Elites choices.
- **Armoured Encirclement:** **VEHICLES** in this detachment (without the **FLY**, **DREADNOUGHT** or **TITANIC** keywords) gain the **Flanking Manoeuvres** ability.
- **Flanking Manoeuvres:** During deployment, you can set up this unit moving around the flanks instead of placing it on the battlefield. At the end of any of your Movement phases the unit can join the battle - set it up so that all models in the unit are within 7" of a battlefield edge of your choice and more than 9" from enemy models.

#### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment. If taken for a Battalion detachment, this detachment only generates 3 command points.
- This detachment may only include one Fast Attack choice.
- This detachment may only include a single **CONSUL**.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

### COMPANY OF BITTER IRON

After the betrayal at Istvan, many surviving Iron Hands considered themselves to have failed in their duties to their Legion and cast off their unit markings, renouncing their comanines and forming themselves into units of Immortals, resolved to sell their lives fighting the Traitors that had brought their Legion low.

#### Advantages:

- **Immortal Hatred:** All **ASTARTES** models in this detachment may re-roll hit rolls in the Fight phase against **TRAITORS**.
- **Bitter Duty:** Medusan Immortals may re-roll Morale tests when inside the enemy deployment zone.

#### Drawbacks:

- All models in your army must be **LOYALIST**.
- Your army may not include Ferrus Manus.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

# LEGION XII - WORLD EATERS

Of all the Space Marine Legions in the Emperor's service, the World Eaters were among the most feared. The whisper of their coming was enough to quell rebellion and send armies to flight in terror. Tales of their predations and massacres were numberless, and their reputation was as the Emperor's war hounds - beasts, butchers and madmen whose fury was fuelled by bloodshed, and was such that no sane warrior would willingly stand against them.

## Legion Traits

- Incarnate Violence:** When a model with this trait makes a successful charge, it can make one additional attack in the subsequent Fight phase, and can re-roll any Wound rolls of a 1.
- Bloodlust:** Units with this trait must always consolidate the full 3" directly towards the nearest enemy model, and attempt to get within 1" if possible.

## Legion Wargear

**WORLD EATERS** models have access to the following wargear:

- Any **CHARACTER** with access to the *Melee Weapons* list may take a Barb-hook lash, Excoriator chainaxe, Meteor hammer or Twin falax blades instead.
- Any model may replace their Chainsword with a Chainaxe.
- WORLD EATERS APOTHECARIES** and **PRIMUS MEDICAE** may choose to take the Exhortation of Butchery ability. If chosen, all **WORLD EATERS APOTHECARIES** and **PRIMUS MEDICAE** must take it.
- In addition, a model in a **WORLD EATERS** detachment can choose the **Earthbreaker Trident** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **WORLD EATERS** Warlord may choose the following Warlord trait:

- Slaughterborn:** If there are at least 10 enemy models within 6" of your Warlord when he fights in the Fight phase, add D3 to his Attacks characteristic until the end of the phase.

WARGEAR	DESCRIPTION					
Exhortation of Butchery	One friendly <b>WORLD EATERS ASTARTES</b> unit within 3" of this model at the start of their Fight phase may choose to increase it's Attacks characteristic by 1 until the end of that phase. However, if this is chosen, roll a D6 for each model in the unit at the end of the phase; on a roll of 1, that model is slain.					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Barb-hook lash	Melee	Melee	*	-1	1	This weapon always wounds on a 2+; except against <b>VEHICLES</b> where it always needs a 6+.
Chainaxe	Melee	Melee	+1	-1	1	-
Earthbreaker trident	Melee	Melee	+2	-2	1	<b>RELIC:</b> Once per game, this weapon may be used in the Shooting phase. When this happens, treat the Range as 12" and the the Strength as 10. Against <b>VEHICLES</b> and <b>BUILDINGS</b> , this Shooting attack does D6 Damage
Excoriator chainaxe	Melee	Melee	+1	-2	1	You suffer -1 to hit rolls with this weapon. Re-roll failed wounds with this weapon.
Gorechild	Melee	Melee	+1	-3	2	If you roll a 6+ to wound with this weapon, it inflicts a mortal wound in addition to its usual damage.
Gorefather & gorechild	Melee	Melee	+1	-3	2	If you roll a 6+ to wound with this weapon, it inflicts a mortal wound in addition to its usual damage.

The cutter	Melee	Melee	User	-2	1	If you roll a 6+ to wound with this weapon, that hit is resolved at AP -3.
Twin falax blades	Melee	Melee	User	-1	1	Each time the bearer fights exclusively with this weapon in the Fight phase, it makes 2 extra attacks with this weapon.

## Legion Rites of War

### BERSERKER ASSAULT

All-out infantry assaults had often been the hallmark of the World Eaters Legion. In the aftermath of Istvan III, they frequently became the sole goal of the Legion; carnage for its own sake beyond any strategic objective.

#### Advantages:

- **Beserk Charge:** All **WORLD EATERS** models in this detachment may re-roll Hit rolls of 1 in the Fight phase when outside their own deployment zone.
- **Unstoppable Wave:** All **WORLD EATERS** models in this detachment may re-roll Advance rolls of 1 and may re-roll charge rolls of 1.

#### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment. If taken by a Battalion detachment, that detachment only generates 4 command points.
- This detachment must take an additional compulsory Troops choices.
- This detachment may not include more than one **CONSUL**, and may not include any **LIBRARIANS**.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

### THE CRIMSON PATH

The XII Legion was known for its willingness to pay the highest butcher's bill in exchange for victory. This spectacle became ever more common as the Legion's descent accelerated until, in certain assault companies, it was almost battlefield doctrine.

#### Advantages:

- **Forlorn Hope:** **INFANTRY** models from this detachment who are in the enemy deployment zone may roll a dice each time they suffer a wound; on a 5+, that wound is ignored.
- **Unto Death:** **CHARACTERS** from this detachment who are in the enemy deployment zone can roll a dice at the start of each of your turns - on a 5+, they regain a lost wound.

#### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- This detachment may not include any **ARTILLERY** units or models equipped with Cataphractii Terminator Armour.
- If the mission being played awards victory points using the Linebreaker or Attrition rules and you do not achieve these, the enemy player gains 1 additional victory point for each..
- Your army may not include a Fortification Network detachment.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

# LEGION XIII - ULTRAMARINES

The Ultramarines legion prosecutes the Emperor’s wars with reason, discipline and resolve; every warrior striving to match the example of their Primarch. The most numerous of the legions, they have long formed the bulwark of the Emperor’s domains in the galactic east.

## Legion Traits

- **Certainty and Resolve:** **ASTARTES** units with this ability count as taking one less casualty than normal when taking a Morale test.
- **Interlocking Tactics:** When targeting a unit that has already been shot at by an **ULTRAMARINES** unit, a unit with this ability can re-roll hit rolls of 1. When charging a unit that is within 1” of an **ULTRAMARINES** unit, a unit with this ability can re-roll charge distance.
- **Rigid Chain of Command:** If all the HQ choices in a detachment containing units with this ability are slain, the opponent gets +1 VP. In addition, every **ULTRAMARINES** model in the detachment reduces their Leadership by 1 for the rest of the battle round.

## Legion Wargear

**ULTRAMARINES** models have access to the following wargear:

- Any **CHARACTER** with access to the *Melee Weapons* list may take a Legatine axe instead.
- In any **BREACHER SQUAD**, the entire unit may replace their boltguns with power swords.
- A **DAMOCLES COMMAND RHINO** can be taken as a Dedicated Transport for an **ULTRAMARINES MASTER OF SIGNALS**.
- A Praetor can take a Mantle of Ultramar.
- In addition, a model in an **ULTRAMARINES** detachment can choose the **Gladius Invictus** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

An **ULTRAMARINES** Warlord may choose the following Warlord trait:

- **Adept of War:** Whilst your Warlord is alive, roll a dice each time you spend a Command Point to use a Stratagem; on a 5+ that CP is immediately refunded.

WARGEAR	DESCRIPTION					
Mantle of Ultramar	Roll a dice for each wound this model suffers; on a 5+, that wound is ignored.					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Gladius incandor	Melee	Melee	+1	-4	D3	If you roll a 6+ to wound with this weapon, it inflicts a mortal wound in addition to its usual damage.
Gladius invictus	Melee	Melee	User	-3	2	<b>RELIC.</b> When attacking with this weapon, the bearer can make 2 additional attacks.
Hand of dominion	Melee	Melee	x2	-3	3	When attacking with this weapon, you must subtract 1 from the hit roll.
Legatine axe	Melee	Melee	User	-3	1	Any hit rolls of a 6+ wound automatically.
The arbitrator	18”	Assault 2	6	-1	2	-

## Legion Stratagem

SCIONS OF GULLIMAN  
Ultramarines Stratagem

1

CP

Use this Stratagem when an **ULTRAMARINES INFANTRY** or **BIKER** unit is selected to attack in a Shooting or Fight phase. You can re-roll all hit rolls of 1 with that unit for the rest of the phase (if the unit is a Legion Tactical Squad or Legion Tactical Support, re-roll all failed hit rolls instead).

Legion Rites of War

THE LOGOS LECTORA

One of the many practical applications of the Legion’s vast storehouse of theoretical scenarios, the Logos Lectora is a battlefield formation which takes advantage of an interlocking range of Legion units to their best effect.

Advantages:

- **Familiar Formation:** This detachment generates 2 more command points than normal
- **The Logos:** Your army gains access to the Full March, Hold Fast and Retribution Strike Stratagems.
- This detachment must take an additional compulsory Troops choices.
- This detachment must take an additional compulsory HQ choice, which must be either a **MASTER OF SIGNALS** or a **DAMOCLES COMMAND RHINO**.

Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- This detachment may not include more **TANK** and Flyer units than **INFANTRY** units.
- Units in this detachment may not utilise any abilities that allow them to arrive from reinforcements, or allow them to deploy outside their deployment zone.

FULL MARCH  
Logos Lectora Stratagem

I  
CP

Use this Stratagem at the start of your turn. All **ULTRAMARINE** units in a detachment using the Logos Lectora can re-roll Advance rolls. This remains in play until another Logos Lectora Stratagem is used.

RETRIBUTION STRIKE  
Logos Lectora Stratagem

I  
CP

Use this Stratagem at the start of your turn. If any **ULTRAMARINE** units in a detachment using the Logos Lectora are charged in the Charge phase, they may re-roll hit rolls of 1 in the subsequent Fight phase. This remains in play until another Logos Lectora Stratagem is used.

HOLD FAST  
Logos Lectora Stratagem

I  
CP

Use this Stratagem at the start of your turn. All **ULTRAMARINE** units in a detachment using the Logos Lectora hit on 5+ when firing Overwatch. This remains in play until another Logos Lectora Stratagem is used.

VIGIL OPERTII MISSION

The Vigil Opertii is a largely unseen wing of the XIII Legion, and serves to underpin the Legion’s control of its home domain of Ultramar. It’s activities focus on counter-insurgency and policing missions, where the population of newly complicant worlds retains some hint of recidivist intent.

Advantages:

- **Vigil Auxilia:** All **INFANTRY** units in the Vigil Auxilia detachment gain the **Objective Secured** and **Concealed Positions** abilities.
- **Concealed Positions:** When you set up this unit during deployment, it can be set up anywhere on the battlefield that is more tha 9” from the enemy deployment zone.
- Legion Recon Squads in this detachment lose the **SUPPORT** keyword.

Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- This detachment must include a **VIGILATOR**.
- Your army must be comprised entirely of **LOYALIST** models.
- Your army must include a Vigil Auxilia detachment - this is a Patrol detachment with the **MILITIA** faction keyword and the *Gene-crafted* and *Warrior Elite* provenances. The Patrol detachment may not include Inducted Levy squads.

# LEGION XIV - DEATH GUARD

The Death Guard are stalwart and implacable fighters who have made a speciality of both endurance under the harshest of circumstances and of overcoming the more nightmarish and inhospitable of war zones. Their name is a byword for unflinching determination and victory through bloody, gruelling attrition when all else fails, as well as for expertise in the darker arts of warfare, such as the use of bio-alchem and rad weaponry.

## Legion Traits

- **Remorseless:** Units with this ability ignore negative modifiers to their Leadership characteristic.
- **Sons of Barbarus:** Models with this ability are never slowed by and never take damage from Battlefield Terrain.
- **Intractable: ASTARTES** Models with this ability may only move 2" when performing a Heroic Intervention or Consolidate move.

## Legion Wargear

**DEATH GUARD** models have access to the following wargear:

- Any model with access to the *Melee Weapons* list may take a power scythe as it's choice from the list.
- Any unit equipped with flamers, hand flamers or heavy flamers may take Chem-munitions. Make clear which units have chem-munitions.
- In addition, a model in a **DEATH GUARD** detachment can choose the **Barbaran Thurible** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **DEATH GUARD** Warlord may choose the following Warlord trait:

- **Resilient** The Warlord adds 1 to his Wounds characteristic. In addition, roll a d6 each time he loses a wound; on a 6+ that wound is not lost.

WARGEAR	DESCRIPTION					
Barbaran thurible	<b>RELIC.</b> The bearer of the Barbaran Thurible heals 1 wound at the start of each of your turns.					
Chem-munitions	This unit may re-roll failed wound rolls with their flamers, hand flamers or heavy flamers. However, if the dice roll to determine the number of shots the weapon makes is a 1, the bearer suffers 1 mortal wound after all the weapon's shot have been resolved.					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES

- Krak grenade	18"	Assault 2	6	-1	D3	-
- Toxin grenade	18"	Assault 2D6	*	-1	1	This weapon always wounds on a 3+; except against <b>VEHICLES</b> where it always needs a 6+.
Master-crafted power scythe	Melee	Melee	+3	-3	2	
Power scythe	Melee	Melee	+3	-3	1	
Silence	When attacking with this weapon, choose one of the profiles below.					
- Reaping scythe	Melee	Melee	User	-2	1	Make 3 hit rolls for each attack with this weapon, instead of 1.
- Eviscerating blow	Melee	Melee	x2	-4	D6	-
The lantern	18"	Pistol 1	8	-3	3	If you hit with this weapon, draw a straight line between the closest point of Mortarion's base and that of the closest model in the target unit. Make a single wound roll against the target unit and each unit the centre of the line passes over.

## Legion Rites of War

### THE REAPING

Although specialising in entrenched warface, the Death Guard Legion also had formations that enables it to operate in concentrated and crushing force in an attack. The Reaping was a deliberately slow-moving and murderous example.

#### Advantages:

- **Superior Firepower:** Legion Veteran Tactical Squads and Legion Heavy Support Squads can be taken as non-compulsory Troops choices and gain the **Objective Secured** ability.
- **Dark Arsenal:** Models in this detachment with access to melta bombs can also take rad grenades.

#### Drawbacks:

- This rite may only be taken by a Battalion detachment.
- This detachment cannot include more than one Fast Attack choice.
- Models in this detachment cannot Advance.
- Units in this detachment may not arrive from reinforcements.

### CREEPING DEATH

As the Heresy ground on, the XIV Legion revealed ever more forbidden weapons. At length, they were able to create a rolling bombardment of chemical munitions and a relentless chem-fog from which the Legionaries would assault in lockstep, somehow untouched by the carnage.

#### Advantages:

- **Mist-clad:** Death Guard Infantry in this detachment gain the benefit of cover from any ranged attack originating from more than 12" away.
- **Toxin Weapons:** All frag grenades and frag missiles used by models in this detachment add 1 to their Strength.
- **Bio-phage Bombardment:** After deployment, but before the first battle round, roll a dice for each piece of terrain on the battlefield. On a 4+ that terrain piece no longer grants the benefit of cover. In addition, roll a dice each time a model Advances or charges across the terrain; on a roll of 1, the model's unit suffers a mortal wound.

#### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- All units in this detachment must be **TRAITORS**.
- This detachment must include a **SIEGE BREAKER**.

## Legion Stratagem

### ENDURANCE

Death Guard Stratagem

Use this Stratagem when a **DEATH GUARD** unit loses a wound. Roll a D6 for that wound, and for each wound lost by the unit for the rest of the phase; on a 6, that wound is not lost.

# LEGION XV - THOUSAND SONS

The Thousand Sons are a Space Marine Legion bound up with occult lore, mysticism and the otherworldly powers of the psyker. It was these esoteric arts of war that made them one of the most formidable Legions, but would eventually see them subject to the Emperor's judgement against them.

## Legion Traits

- Prosperine Lore:** If a **THOUSAND SONS CHARACTER** is selected to be the Warlord, they must be a **PSYKER** (or take the Psyker upgrade, detailed below in 'Legion Wargear'). In this case, the Warlord must be the **THOUSAND SONS CHARACTER** with the highest Leadership characteristic in the detachment. **THOUSAND SONS PRAETORS** must always take the Psyker upgrade.
- Cult Arcana:** Units with this ability gain the **<CULT>** keyword. With the exception of HQ choices, compulsory choices in a **THOUSAND SONS DETACHMENT** must choose the same **<CULT>** as the Warlord (if possible). The five cults and their respective abilities are listed here:
  - Athanean:** Enemy Psykers suffer -1 to attempts to manifest psychic powers within 18" of models from the Athenaeon cult.
  - Corvidae:** Models from the Corvidae cult can re-roll hit rolls of 1 in Shooting phase, if they were stationary in the Movement phase.
  - Pavoni:** Models from the Pavoni cult can re-roll failed charge rolls.
  - Pyrae:** Models from the Pyrae cult are equipped with Psychic flames.
  - Raptora:** Models from the Raptora cult have a 6+ invulnerable save, or add 1 to their existing invulnerable save.
- Signs & Portents:** Each time a unit with this trait suffers a wound as a result of Perils of the Warp, all friendly **THOUSAND SONS ASTARTES** suffer -1 to their Leadership when taking Morale tests for the rest of that battle round. In addition, if all **THOUSAND SONS CHARACTERS** in the army are slain, all friendly **THOUSAND SONS ASTARTES** suffer -1 to their Leadership when taking Morale tests for the rest of the game.

## Legion Wargear

**THOUSAND SONS** models have access to the following wargear:

- A **CHARACTER** (without the **PSYKER** keyword), Legion Veteran Tactical Squads and Legion Terminator Squads can take the Psyker upgrade.
- Any **PSYKER CHARACTER** can replace their chainsword with a force sword, force axe or force stave.
- Any **PSYKER CHARACTER** can take arcane litanies.
- Any **CHARACTER, VETERAN TACTICAL SQUAD**, Legion Terminator Squad or **TACTICAL SUPPORT SQUAD** can take Asphyx shells.
- Any **CONTEMPTOR DREADNOUGHT** can take the Osirion upgrade.
- Any model can replace it's Plasma cannon/Heavy plasma cannon with a Ætherfire cannon.
- In addition, a model in a **THOUSAND SONS** detachment can choose the **Luminiferous Resonator** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **THOUSAND SONS** Warlord may choose the following Warlord trait:

- Psychic Exemplar:** The Warlord may add 1 to any Psychic tests made to manifest powers from their Cult Discipline. Any rolls of 12+ count as Perils of the Warp.

WARGEAR	DESCRIPTION
Arcane litanies	Once per game, this model may re-roll one of the dice when attempting to cast a Psychic power.
Asphyx shells	Bolt pistols, boltguns, combi-bolters, the boltgun profile of combi-weapons, mauler pattern bolt cannons and rotor cannons get +1 to wound rolls against <b>INFANTRY</b> .
Osirion	This model gains the <b>PSYKER</b> keyword. They may attempt to manifest one psychic power in each friendly Psychic phase and attempt to Deny one psychic power in each enemy Psychic phase. They know the <i>Smite</i> power and one other psychic powers chosen from their Cult Discipline. This model can replace any Dreadnought close combat weapons with Dreadnought force blades. In addition, this model has the Psychic Hood ability. <ul style="list-style-type: none"><li><b>Psychic Hood:</b> You can add 1 to Deny the Witch tests you take for this model against enemy <b>PSYKERS</b> within 12".</li></ul>
Psyker ( <b>PRAETOR</b> )	This model gains the <b>PSYKER</b> keyword. They may attempt to manifest two psychic powers in each friendly Psychic phase and attempt to Deny two psychic powers in each enemy Psychic phase. They know the <i>Smite</i> power and two other psychic powers chosen from their Cult Discipline or the Librarius Discipline.
Psyker (other <b>CHARACTERS</b> )	This model gains the <b>PSYKER</b> keyword. They may attempt to manifest one psychic power in each friendly Psychic phase and attempt to Deny one psychic power in each enemy Psychic phase. They know the <i>Smite</i> power and one other psychic power chosen from their Cult Discipline or the Librarius Discipline.
Psyker (other units)	This unit gains the <b>PSYKER</b> keyword. They may attempt to manifest one psychic power in each friendly Psychic phase and attempt to Deny one psychic power in each enemy Psychic phase. They know the <i>Smite</i> power and one other psychic power chosen from their Cult Discipline. When manifesting or Denying a psychic power, first select a model in the unit - measure range, visibility etc from this model. If this unit suffers Perils of the Warp, it suffers D3 mortal wounds as described in the core rules, but units within 6" will only suffer damage if the Perils of the Warp cause the last model in the manifesting unit to be slain.

Before the battle, generate the psychic powers for Psykers that can use powers from the Cult disciplines using the appropriate table below. You can either roll a D3 to generate their powers randomly (re-roll any duplicate results), or you can select the psychic powers you wish the psyker to have. <CULT> THOUSAND SONS PSYKERS have access to the psychic powers corresponding to their <CULT>.

If the score is less than that model's Leadership nothing happens, but if it is equal to or greater, that model can immediately shoot another enemy unit of your choice, or make a single close combat attack against it, as if it were part of your army. Models cannot attack themselves, but they can attack other members of their unit.
2	<b>Horrify</b> <i>Warp charge 6</i> Choose an enemy unit within 18" of the psyker – your opponent must subtract 1 from the Leadership of that unit until your next Psychic phase.
3	<b>Mass Hypnosis</b> <i>Warp charge 7</i> If manifested, select a visible enemy unit within 18" of the psyker. Until the start of your next Psychic phase, the target cannot fire Overwatch, fights last in the Fight phase even if it charged, and must subtract 1 from its hit rolls
CORVIDAE DISCIPLINE

1	<b>Prescience</b> <i>Warp Charge 7</i> If manifested, select a <b>THOUSAND SONS</b> unit within 18" of the psyker. You can add 1 to all hit rolls made for that unit until the start of your next Psychic phase.
2	<b>Forewarning</b> <i>Warp charge 6</i> If manifested, select a <b>THOUSAND SONS</b> unit within 18" of the pskyer. 3	<b>Renewal</b> <i>Warp charge 5</i> If manifested, select a friendly non- <b>VEHICLE THOUSAND SONS</b> unit within 18" of the psyker. That unit recovers D3 wounds lost earlier in the battle.

PYRAE DISCIPLINE

# LEGION XVI - SONS OF HORUS

One of the most aggressive Legions, the combat doctrines of the Sons of Horus were those of the application of overwhelming force directed to where the foe was weakest. These shattering blows were used to utterly destroy enemy command cadres, vital strategic support structures and wreak terrible slaughter on the pride of an enemy's forces, often turning the tide of a conflict with a single, well-placed attack.

## Legion Traits

- **Merciless Fighters:** Models with this ability who roll Hit rolls of a 6+ in the Fight phase generate an additional attack (additional attacks do not generate further attacks).
- **Death Dealer:** Models with this ability get a +1 bonus to hit rolls when making attacks with Rapid Fire or Assault type weapons within 9" of the target unit.
- **Bitter Pride:** Models with this ability can only benefit from special abilities or psychic powers that are provided by **SONS OF HORUS** models. In addition, in missions that award Victory Points for killing the Warlord, a **SONS OF HORUS** Warlord is worth 1 more VP than normal.

## Legion Wargear

**SONS OF HORUS** models have access to the following wargear:

- Any **CHARACTER** or **SEEKER SQUAD** can take Banestrike rounds.
- An Anvillus Pattern Dreadclaw Drop Pod can be taken as a Dedicated Transport for **SONS OF HORUS** units.
- In addition, a model in a **SONS OF HORUS** detachment can choose the **Cataphractii Primus** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **SONS OF HORUS** Warlord may choose the following Warlord trait:

- **Choleric:** The Merciless Fighters trait generates additional attacks on a 5+, instead of on a 6+ for models in friendly Sons of Horus units that are within 6" of your Warlord.

WARGEAR	DESCRIPTION					
Banestrike rounds	Bolt pistols, boltguns, combi-bolters, the boltgun profile of combi-weapons and heavy bolters have their AP value increased to -2. Special issue boltguns increase the AP value of their standard rounds to -2.					
Cataphractii primus	<b>RELIC.</b> The bearer of this armour has adds 1 to its Toughness. This unit has a 4+ invulnerable save, but you must halve the result of the dice rolled when determining how far this model Advances and reduce its Movement characteristic to 4".					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Chainaxe	Melee	Melee	+1	-1	1	-
Master-crafed bolt pistol	12"	Pistol 1	4	0	2	-
Cthonian culling blade	Melee	Melee	User	-1	2	If you roll a wound roll of 6+ for this weapon, it inflicts a mortal wound in addition to its normal damage. If targeting <b>CHARACTERS</b> , you may re-roll failed hit rolls with this weapon.
The Warmaster's Talon	This weapon has both a melee and a ranged profile. The melee profile is used during the Fight phase, the ranged profile is used during the Shooting phase and for Overwatch.					
- Melee	Melee	Melee	User	-3	2	If you roll a 6+ to wound with this weapon, it inflicts a mortal wound in addition to its usual damage. You can re-roll failed wound rolls with this weapon. Any model wounded by this weapon suffers a -1 to hit rolls until the start of the next Fight phase.
- Ranged	24"	Assault 6	5	-2	1	-
Worldbreaker	Melee	Melee	10	-4	4	When attacking with this weapon, you must subtract 1 from the hit roll.

## Legion Rites of War

### THE BLACK REAVING

As the Heresy burned on, the XVI Legion's tactics became ever more callous and predatory. This formation represents one of those highly co-ordinated strike forces which encircled and tore its victims apart like a pack of nightmarish predators.

#### Advantages:

- **The Eye of the Warmaster:** Justaerin Terminator units gain the **Teleport Assault** ability
- **Teleport Assault:** During deployment, you can set up this unit in the teleportarium chamber instead of placing it on the battlefield. At the end of any of your Movement phases this unit can perform a teleport assault - set it up anywhere on the battlefield that is more than 9" away from any enemy models.
- **Reaver Onslaught:** Reaver Attack Squads can be taken as Troops choices.
- **Encirclement:** **SONS OF HORUS INFANTRY** units in this detachment that arrive on the board by using the **Flanking Manoeuvres** ability can re-roll charge rolls in the following Charge phase.
- **Cut them Down:** Any unit in this detachment that charge in the Charge phase can re-roll wound rolls of 1 in the following Fight phase.

#### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- This detachment must take an additional compulsory Troops choices.
- This detachment must take more Fast Attack choices than Heavy Support choices.
- This detachment must take a **MASTER OF SIGNALS** as a compulsory HQ choice.
- Your army may not include a Fortification Network detachment.

### THE LONG MARCH

Even before the Heresy, the XVI Legion was considered the first amongst equals. They later formed the main body fo the long march towards Terra, a relentless, all-conquering host that swept all before it and against which no world could stand.

#### Advantages:

- **The Warmasters Eyes:** Legion Terminator Squads can be taken as non-compulsory Troops choices.
- **Relentless March:** **SONS OF HORUS INFANTRY** in their own deployment zone may ignore the -1 hit modifier for moving and firing heavy weapons. **SONS OF HORUS INFANTRY** in neither deployment zone may re-roll Advance rolls. **SONS OF HORUS INFANTRY** in the enemy deployment zone may re-roll Charge rolls.
- **The Warmaster's Portion:** On the first turn of the game, models in this detachment may re-roll hit rolls of 1.

#### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment. It may not be taken by Shattered Legions armies.
- All units in this detachment must be **TRAITORS**.
- Any models with Cataphractii Terminator Armour must be deployed inside a transport vehicle or deploy via the **Teleport Assault** ability (this Rite does not grant the ability).
- Your army may not include a Fortification Network detachment.
- Your army may not include any units without the **SONS OF HORUS** keyword.

# LEGION XVII - WORD BEARERS

Where once the XVII legion brought the light of the Emperor to benighted humanity, now the Word Bearers bring the darkness of Old Night. No longer driven by duty and honour, but by the thirst for forbidden lore and undeserved power, they seek to Warp itself and enslave its denizens to their will. When the Word Bearers march to war, the fabric of reality is distorted and dread things from the abyss march at their side.

## Legion Traits

- **True Believers:** Models with this ability can re-roll failed Morale tests.
- **Infernal Knowledge:** **TRAITOR PSYKERS** and **DIABOLISTS** with this ability can make use of Daemonic Rituals.
- **Charismatic Leadership:** If your army includes any Legiones Astartes Detachments with the **WORD BEARERS** keyword, the largest one must fill all available HQ slots, and one of it's HQ choices must be a model with either the **CENTURION** or **CHAPLAIN** keywords. If no qualifying detachment exists in your army, ignore this rule.

## Legion Wargear

**WORD BEARERS** models have access to the following wargear:

- Any **TRAITOR CENTURION** without a current Consul upgrade can be upgraded to a Diabolist Consul.
- Any **TRAITOR PRAETOR**, **CENTURION**, **DIABOLIST** or **CHAPLAIN** can take Burning Lore.
- Any model with access to the *Melee Weapons* list can take a Tainted weapon as it's choice from the list.
- If the detachment includes a **DIABOLIST**, any **TACTICAL SQUAD**, **ASSAULT SQUAD**, **BREACHER SQUAD**, **VETERAN TACTICAL SQUAD** or Legion Terminator Squad can take Dark Channelling.
- In addition, a model in a **WORD BEARERS** detachment can choose the **Conversion Dissonator** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **WORD BEARERS** Warlord may choose the following Warlord trait:

- **Voice of Lorgar:** Increase the range of any aura abilities on your Warlord's datasheet by 3".

WARGEAR	DESCRIPTION
Burning Lore	This model gains the <b>PSYKER</b> keyword, knows Smite and one other psychic power from the <i>Librarius</i> discipline. They may attempt to manifest one psychic power in each friendly Psychic phase and attempt to Deny one psychic power in each enemy Psychic phase.
Conversion dissonator	<b>RELIC.</b> Enemy non-Vehicle units within 6" suffer a -1 penalty to Toughness
Dark Channelling	At the start of the game, roll D3 on the following table: 1. The unit may re-roll failed hit rolls in the first round of combat. 2. The models in the unit have +1 Strength. 3. The unit has a 5+ invulnerable save.
Diabolist Consul	<ul style="list-style-type: none"><li>• This model loses the <b>CENTURION</b> keyword and gains the <b>DIABOLIST</b>, <b>CONSUL</b> and <b>DAEMON</b> keywords.</li><li>• <b>Daemonic:</b> This model has a 5+ invulnerable save.</li><li>• <b>Boundless Rage:</b> This model can re-roll failed to hit rolls during the Fight phase when targeting models with the <b>LOYALIST</b> keyword.</li><li>• May not take a power fist, chainfist, thunder hammer, Bike, Jetbike or Terminator armour.</li></ul>

WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Anakatis blade	Melee	Melee	User	-3	2	Each time you make a wound roll of 6+ for this weapon, the weapon scores an additional automatic hit at the weapon's normal profile which is resolved after the initial attacks for the weapon on the same unit. These additional hits do not themselves generate more additional hits
Axe-rake	Melee	Melee	+1	0	1	Roll off if an enemy <b>INFANTRY</b> unit within 1" wishes to Fall Back, the enemy unit can only Fall Back if the player commanding it wins the roll-off.
Azurda Char'is	Melee	Melee	+2	-1	D3	-
Curs'd boltspitter	24"	Assault 2	4	-1	1	-
Digi flamer	6"	Pistol D3	3	0	1	This weapon automatically hits its target. This weapon can only be used once per battle.

Master-crafted power maul	Melee	Melee	+2	-1	2	-
Tainted powerclaw	Melee	Melee	10	-3	3	Invulnerable saves cannot be made against this weapon.
Tainted weapon	Melee	Melee	User	-1	D6	-
Warpfire plasma cannon	36"	Heavy D3	8	-3	2	For each hit roll of 1, the bearer suffers one mortal wound after all this weapon's shots have been resolved.

# Legion Rites of War

## THE DARK BRETHREN

As the Legion came to the worship of old and nightmarish gods, certain warbands took to enacting horrific rites on the eve of battle to curry favour from the Warp. Such warbands became shadowed with the foulest and most unnatural evil.

### Advantages:

- **Arch-Traitors:** **CHARACTERS** in this detachment can re-roll hit and wound rolls of 1 against **LOYALIST ASTARTES**.
- **Signs & Portents:** At the start of the game, select one of the Troops choices from this detachment and roll a dice. On a roll of 1-3, that unit can re-roll hit and wound rolls of 1. On a roll of 4-6, enemy units can re-roll hit and wound rolls of 1 when targeting this unit.
- **Hell follows with Them:** Enemy **PSYKERS** who suffer Perils of the Warp take one more mortal wound than normal.

### Drawbacks:

- This rite may only be taken by a Battalion detachment.
- This detachment must include a **DIABOLIST**.
- This detachment cannot include more than one Heavy Support choice.
- Your army may include a Patrol detachment made up of Warhammer 40,000 units with the **CHAOS** and **DAEMON** keywords (but without the **RENEGADE ASTARTES** or **RENEGADES AND HERETICS** keywords).
- Your army may not include a Fortification detachment.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

## LAST OF THE SERRATED SUNS

The Serrated Sun were the first chapter to walk the path of the Ruinous Powers, and many fell during the Istvan massacre. For a time, the survivors formed a dedicated elite within the Legion, and maintained the drop assault doctrines at which it had been unequalled.

### Advantages:

- **Company of Monsters:** Gal Vorbak must be taken as the compulsory Elites choices in this detachment, and gain the **Objective Secured** ability. They must be deployed inside a Drop Pod or Dreadclaw Drop Pod.
- **Drop Elite:** **DROP PODS** are available as Dedicated Transports.
- **Burning Sun:** Enemy units within 12" of the landing point of a Drop Pod or Dreadclaw Drop Pod count their Leadership as one less than normal until the end of the battle round.

### Drawbacks:

- This rite may only be taken by a Vanguard detachment.
- **INFANTRY** units in this detachment must be deployed inside a Drop Pod or Dreadclaw Drop Pod, deployed via Teleport Assault, or transported inside a Flyer.
- This detachment cannot include any **ARTILLERY** units.
- Your army may not include a Fortification detachment.
- Your army may not include any units without the **WORD BEARERS** keyword.

# Legion Stratagem

## CUT THEM DOWN! Word Bearers Stratagem

# LEGION XVIII - SALAMANDERS

The Salamanders are the exemplars of forge-wrought duty, masters of artifice and possessed of a fearsome and uncompromising sense of honour. They stand for toil and sacrifice, bearing arms and armour forged to the highest possible standards and often by the hands of the Legionnaires who bear them in battle. The Legion wields the tools of the smith as a weapon of war, bringing heat, iron and raw strength of arms to those who would deny the Imperial Truth.

## Legion Traits

- Strength of Will:** Units with this ability ignore any negative modifiers to their Leadership characteristic.
- Promethean Cult:** Reduce the Strength of any flamer attack made against a unit with this ability by 1. For the purposes of this trait, a flame weapon is any weapon whose name includes the word 'flame' (e.g. flamer, heavy flamer, flamestorm cannon).
- Nocturne Born:** When Advancing or charging, models with this ability reduce the dice roll by 1.

## Legion Wargear

**SALAMANDERS** models have access to the following wargear:

- Any **CHARACTER** can make one of their weapons Master-crafted.
- Any model can replace its Heavy bolter/Twin heavy bolter with a Heavy flamer/Twin heavy flamer.
- Any model can replace its Plasma pistol with an Inferno pistol.
- A **PRAETOR** can take a Mantle of the Elder Drake.
- Any **TERMINATOR** model can replace its combi-bolter with a Dragonscale storm shield.
- In addition, a model in a **SALAMANDERS** detachment can choose the **Zeroth Conductor Shield** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **SALAMANDERS** Warlord may choose the following Warlord trait:

- Anvil of Strength:** Add 1 to the Strength characteristic of your Warlord.

Mantle of the Elder Drake	All damage suffered by a model with a Mantle of the Elder Drake is reduced by 1 (to a minimum of 1).					
Master-crafted	A weapon that has been Master-crafted increases its Damage by 1.

Legion Rites of War

THE COVENANT OF FIRE

Under the tutelage of Vulkan, the Salamanders were slow to anger. But when their fury was unleashed, it was a terrible thing to behold, and carried out with all the arts and artifice of warfare at their disposal.

Advantages:

- **Familiar Formation:** This detachment generates 1 more command point than normal.
- **Obsidian Forged:** **VEHICLES** in this detachment gain a 5+ invulnerable save against weapons with the words melta, flamer, volkite or plasma in their name.

- With the exception of **CHAMPIONS**, this detachment may only include one **CONSUL**.
- Your army may not include a Fortification Network detachment.

THE AWAKENING FIRE

When Lord Vulkan was lost to his sons on the killing fields of Istvan, many of them turned to the Promethean Cult for succour, plumbing it's hidden depths for some guidance on how they should overcome their unfathomable loss.

Advantages:

- **Devils from the Dark:** Enemy models in combat with **SALAMANDERS INFANTRY** units in this detachment count their Leadership characteristic as one less than normal.
- **Unto the Fires:** In missions where a dice roll is used to determine game length you may choose to add 2 to the result of the dice.
- **Fury of the Salamander:** **LIBRARIANS** in this detachment may choose Fury of the Salamander as one of their chosen psychic powers.

Fury of the Salamander

Warp Charge 7

If manifested, pick an enemy unit within 18" of the psyker. The unit suffers D3 mortal wounds. For the purposes of Morale tests, each of these wounds counts as two wounds.

Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- This detachment must include a **CHAPLAIN**.
- This detachment may only one unit with each of the following keywords: **JUMP PACK**, **FLY**.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units without the **SALAMANDERS** keyword.

# LEGION XIX - RAVEN GUARD

The Raven Guard are equal parts light and dark, quick to exact justice and retribution upon the tyrant and the oppressor by striking from the shadows with lightning speed and shocking strength. Though they master the full spectrum of war, the Raven Guard Legion favours the tactics of patience, guile and subtlety. It is adept at reconnaissance and infiltration, of identifying its foe's weakest point and then rapidly striking at that point with precisely applied force.

## Legion Traits

- **By Wing and Talon:** **INFANTRY** units (except those with the **BIKER**, **JUMP PACK** and **TERMINATOR** keywords) gain the Concealed Positions ability.
  - **Concealed Positions:** When you set up this unit during deployment, it can be set up anywhere on the battlefield that is more than 9" from the enemy deployment zone and any enemy models.
- **Furious Assault:** **BIKER**, **JUMP PACK** and **TERMINATOR** units get +1 Strength during the Fight phase of the turn they charge.
- **Flesh over Steel:** A **RAVEN GUARD** detachment cannot have more units with the **TANK** keyword than units with the **ASTARTES** keyword.

## Legion Wargear

**RAVEN GUARD** models have access to the following wargear:

- Any **INFANTRY** unit can take Cameleoline.
- Any model with a Lightning claw/pair of Lightning claws can upgrade them to Ravens Talons.
- In addition, a model in a **RAVEN GUARD** detachment can choose the **Fractal Harrowblade** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

A **RAVEN GUARD** Warlord may choose the following Warlord trait:

- **Silent Stalker:** Enemy units cannot fire Overwatch at your Warlord.

WARGEAR	DESCRIPTION					
Cameleoline	Add 2 to saving throws made for models in the unit when they receive the benefits of cover, instead of 1.					
Nightfall Pattern Strato-vox	If Alvarex Maun is on the table at the start of the turn, any <b>RAVEN GUARD ASTARTES</b> units that arrive from reinforcements and are deployed within 12" of him add 1 to their Attacks characteristic in the fight if they are charged by the enemy in the following enemy turn. In addition, you may re-roll any hit rolls of 1 made for friendly <b>RAVEN GUARD</b> Basilisks, Medusas, Whirlwinds or Rapiers with Quad Launchers when they target enemy units at least 36" away in the Shooting phase, if the enemy unit is within sight of this model.					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Eclipse missiles	48"	Heavy 2D6	-	-	-	This weapon does not inflict any damage. Your opponent must subtract 1 from any hit rolls made for <b>Infantry</b> units that have suffered any hits from shroud bombs, or eclipse missiles, until the end of the turn.
Fulcrum hand cannon	18"	Pistol 1	4	-1	1	If you roll a 6+ to wound with this weapon, that hit is resolved at AP-3.
Fractal harrowblade	Melee	Melee	+1	-4	D3	<b>RELIC</b>
Panoply of the raven lord	Melee	Melee	User	-3	2	You can re-roll failed wounds with this weapon. Any attacks which roll a 6+ to wound cause +1 Damage.
Raven's talons	Melee	Melee	User	-2	2	You can re-roll failed wounds with this weapon. If a model is armed with two raven's talons, each time it fights it can make 1 additional attack with them. If you roll a 6+ to wound with this weapon, that hit is resolved at AP-3.

Legion Rites of War

DECAPITATION STRIKE

Where possible, the Raven Guard favoured the clinical effectiveness of a decapitation stike over armoured assault. Launched with complete surprise, this was a hgly organised and finely targetted attack whose force was contained and directed with precision.

Advantages:

- **For Whom the Bell Tolls:** When targeting enemy **CHARACTERS**, **ASTARTES** units in this detachment may re-roll dice rolls of 1 to hit and to wound.
- **Predatory Strike:** If the mission involves rolling to Seize the Initiative, this army adds 1 to their roll.
- **Fury from Above:** **DROP PODS** may be taken as Dedicated Transports. However, they may only carry Legion Tactical Squads, Legion Veteran Tactical Squads, Legion Seeker Squads or Legion Heavy Support Squads.

Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment.
- This detachment may only include a single **CONSUL**.
- This detachment may only include a single Heavy Support choice.
- Your army may not include a Fortification Network detachment.
- Your army may not include any units with a different **<LEGION>** keyword than the units in this detachment.

LIBERATION FORCE

After the escape from Isttvan, Corax led his forces on a campaign to liberate the peoples of numerous worlds whose leaders had declared for the Warmaster. With each world freed another Loyalist army was raised.

Advantages:

- **Freedom Fighters:** This army has access to the **Freedom Fighters** stratagem.
- **Slayer of Tyrants:** If the mission being played awards a victory point for slaying the enemy Warlord, you will each D3 victory points instead of 1.
- **Lead by Example:** Friendly **MILTIA** models within 6" of a **RAVEN GUARD ASTARTES** model from this detachment may re-roll Morale tests.

Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment. It may not be taken by Shattered Legions armies.
- Your army must be entirely composed of **LOYALISTS**.
- Your army may not include a Fortification Network detachment.
- Your army may not include any **ARTILLERY** units or models equipped with Cataphractii Terminator Armour.

FREEDOM FIGHTERS  
Liberation Force Stratagem

Use this Stratagem at the start of your turn. Until your next turn, all models in your army ignore any Morale tests they are called to make and may re-roll hit rolls of 1 in the Fight phase.

Legion Stratagem

SHADOW STRIKE  
Raven Guard Stratagem

Use this Stratagem before a **RAVEN GUARD INFANTRY** unit makes a charge roll in the Charge phase. If the unit is entirely within cover, you may add 1" to the charge roll and ignore any terrain penalties from charging through cover.

## ABILITIES

### Legion Traits

**Cameleoline:** Add 2 to saving throws made for this model when it receives the benefits of cover, instead of 1.

**Chain Fire:** This model can add D6 to the Shots characteristic of its Pistol weapons in the Shooting phase (roll separately for each weapon). If it does, this model cannot charge this turn or make any ranged attacks during the next turn.

**Gunfighter:** Kaedes Nex may use his fulcrum hand cannon in the Fight phase, in which case their range and type are replaces with Melee.

**Ill-omened:** This model has the Support keyword and may never be chosen as the army's warlord.

**Refractor field:** This model has a 5+ invulnerable save.

**Relentless Stalker:** After all other units have been deployed, select one enemy Elites or HQ choice as Nex's chosen prey. You may then deploy this model. He may be deployed in your deployment zone as usual, or alternatively he may be deployed anywhere on the battlefield more than 9" away from his chosen prey, as long as no enemy model can trace a line of sight to him.

**The Raven's Vengeance:** If Nex targets his chosen prey during the Fight phase, he may re-roll failed Hit rolls. In addition, if the chosen play is slain during a Fight phase in which Nex is involved in the combat, or during a Shooting phase in which Nex inflicted at least one wound on the prey, you score an additional victory point.

# LEGION XX - ALPHA LEGION

Of all the Legiones Astartes, the least is known for certain about the Alpha Legion. All that is known is that the warriors of the Alpha Legion are the unsurpassed masters of misdirection and guile. Most foes have no inkling they are even fighting before the Legion's masterful stratagems cause their defense to collapse beneath them, torn apart from within so that when the final overwhelming attack finally comes, the enemy's defeat is total.

## Legion Traits

- Mutable Tactics:** Before setting up your first unit, pick one ability from the list below. All **ALPHA LEGION ASTARTES** units gain this ability for the rest of the battle.
  - Feigned Deployment:** At the start of the first battle round but before the first turn begins, you can move this unit up to 6". It cannot end this move within 9" of any enemy models. If both players have units that can do this, the player who is taking the first turn moves their units first.
  - Advance Deployment:** When you set up this unit during deployment, it can be set up anywhere on the battlefield that is more than 18" from any enemy models.
  - Technical Secrets:** When targetting enemy Vehicles, this unit may re-roll Wound rolls of 1.
  - Combat Stimulants:** If this unit charged or was charged in the Charge phase, it may re-roll Hit rolls of 1 in the following Fight phase.
  - Advance Surveying:** This unit ignores any negative effects from Battlefield Terrain.
- Martial Hubris:** If an army containing an **ALPHA LEGION** Detachment has suffered more destroyed units than the enemy army at the end of the game then it gives the opponent +1 VP.

## Legion Wargear

**ALPHA LEGION** models have access to the following wargear:

- Any model with access to the *Melee Weapons* list can take a Power dagger in addition to their normal options..
- Any **CHARACTER** with Frag grenades can replace them with Venom spheres.
- Any model with a Grenade harness can replace it with a Venom sphere harness.
- Any Legion Veteran Tactical Squad, Legion Seeker Squad or Legion Terminator Squad can take Banestrike rounds.
- Any **CENTURION** without a current Consul upgrade can be upgraded to a Saboteur Consul.
- In addition, a model in an **ALPHA LEGION** detachment can choose the **Drakiana** instead of a relic from the Legiones Astartes list.

## Legion Warlord Trait

An **ALPHA LEGION** Warlord may choose the following Warlord trait:

- No, I'm Alpharius!:** In addition to this Warlord Trait, your Warlord has one randomly selected Legion Warlord Trait. If your Warlord is slain, you can immediately select another Alpha Legion Character in your army to take their place and generate a Warlord Trait for them (including this one). If the mission you are playing grants Victory Points for slaying the enemy Warlord, your opponent will only achieve that objective if all of the Alpha Legion Characters in your army have been slain.

WARGEAR	DESCRIPTION					
Banestrike rounds	Bolt pistols, boltguns, combi-bolters, the boltgun profile of combi-weapons and heavy bolters have their AP value increased to -2. Special issue boltguns increase the AP value of their standard rounds to -2.

## Legion Rites of War

### THE COILS OF THE HYDRA

The dect and subterfuge the Alpha Legion were famous for was often a means to an end, placing their foes at a disadvantage on the battlefield and leaving them vulnerable to a sudden surprise attack by rapid moving forces.

#### Advantages:

- **Signal Corruption:** Enemy units deployed as reinforcements must be 1" further away than normal.
- **Subterfuge:** If the mission involves rolling to Seize the Initiative, this army may re-roll the dice roll.
- **The Rewards of Treason:** This detachment may select a single unit with a different <LEGION> keyword as an Elites choice. This may not be a Character or a Primarch, or a unit which armies can only include one of. The chosen unit has the Alpha Legion Traits rather than its usual Legion Traits.

#### Drawbacks:

- This rite may only be taken by a Patrol or Battalion detachment. It may not be taken by Shattered Legions armies.
- **INFANTRY** units in this detachment must be deployed transported inside a **VEHICLE**, unless they are deployed as reinforcements or deployed using the **Advance Deployment** or **Concealed Positions** abilities.
- With the exception of **VIGILATORS**, this detachment may only include a single **CONSUL**.
- This detachment must include an additional compulsory Troops choice.

### HEADHUNTER LEVIATHAL

Few missions were as shrouded in mystery as those of the Legion's Headhunters. Though no eye witness accounts survive in detail, secondary eveidents points to missions of thise type being carried out across the length fo the Imperium.

#### Advantages:

- **Headhunter Elite:** Headhunter Kill Teams must be the compulsory Fast Attack choices in this detachment, and gain the **Objective Secured** ability.
- **Sudden Strike:** If the mission involves rolling to Seize the Initiative, this army may add 1 to the dice roll.
- **False Flags:** In the first battle round, any enemy wishing to target an **ALPHA LEGION** unit in the Shooting phase must first roll equal to or under its Leadership characteristic on 2d6. If it fails, it may not shoot at all that phase.

#### Drawbacks:

- This rite may only be taken by an Outrider detachment.
- You must kill the enemy Warlord. If you have not achieved this by the end of the game, the enemy player gains D3 victory points.
- During deployment, any **VEHICLE** must be set up in the Second Wave instead of being placed on the battlefield. At the end of your second Movement phase these units can join the battle - set them up so that all models in the unit are within 7" of your rearmost battlefield edge and more than 9" from enemy models.

# BLACKSHIELDS

The term ‘Blackshields’ came to be used during the period of the Horus Heresy known as the Age of Darkness to cover a wide range of Space Marine outcasts, marauders and those of uncertain allegiance or origin. Mystery and suspicion attached themselves to such warriors regardless of their true loyalties or intentions. Of those Blackshields who were truly rogue, many still fought their war with a bitter fervour that matched that of Loyalist or Traitor while others, perhaps starting on their path through a simple desire to survive, became reavers and renegades intent on forging their own destinies through the stars.

## Blackshield Detachments

You may decide that a detachment of Legiones Astartes is a Blackshield detachment. Blackshield detachments have some important exceptions and deviations from the usual detachment rules, as detailed below.

- **No Fealty:** A **LEGIONES ASTARTES** Detachment containing **BLACKSHIELD** units may only contain other **BLACKSHIELD** units, and may not be a Shattered Legion Detachment. All units in a Blackshield detachment change their **<FEALTY>** and **<LEGION>** keywords to **BLACKSHIELD**.
- **Outcasts:** Despite being neither Loyalist nor Traitor, Blackshield detachments may be included in **LOYALIST** or **TRAITOR** armies. If your army includes any non-Blackshield detachments, you must still pick between **LOYALIST** or **TRAITOR** to apply to those detachments. However, if any non-Blackshield **LEGIONES ASTARTES** units are within 6” of a **BLACKSHIELD** unit at the start of the Morale phase, they suffer a -1 to their Leadership characteristic until the end of the phase.
- **Wrought by War:** A Blackshield detachment may never select a Rite of War, and models within it may not make use of Legion Traits. However, it may select one of the Wrought by War doctrines opposite. All Blackshield detachments in the army must have the same Wrought by War doctrine (or lack of one).
- **Limited Resources:** A Blackshield detachment can only include one **CONSUL**, and cannot include any of the following units: **PRAETOR**, **COMMAND SQUAD**, **TACTICAL SQUAD**, **DROP POD**, **DREADNOUGHT DROP POD**, **DEATHSTORM DROP POD**. In addition, a Blackshield detachment may not have more units with the **VEHICLE** keyword than it has units with the **INFANTRY** keyword, excluding Dedicated Transports.

## Blackshield Wargear

**BLACKSHIELD** models have access to the following wargear:

- Any unit with access to Boltguns can replace them with Pariah boltguns.
- Any unit with access to Flamers can replace them with Pariah flamers.
- Any unit with a 3+ save may take Pariah power armour.

## Blackshield Warlord Trait

A **BLACKSHIELD** Warlord may choose the following Warlord trait:

- **Charismatic Presence:** This model, and any **BLACKSHIELDS** units within 3” of him, may ignore the effects of the ‘Outcasts’ trait on other models - they do not, therefore, inflict the usual -1 Leadership penalty on nearby **LEGIONES ASTARTES**.

WARGEAR	DESCRIPTION					
Pariah power armour	Models equipped with pariah power has a 3+ save, decreasing to a 5+ against weapons with a Strength characteristic of 6 or higher. However, models equipped with pariah power armour may fire Pistol or Rapid Fire weapons in the Shooting phase even if they Advanced in the Movement phase, though they do so with a -1 to hit modifier.					
WEAPON	RANGE	TYPE	S	AP	D	ABILITIES
Calibanite Flammbard	Melee	Melee	+1	-4	1	In the Fight phase, enemy models directing their attacks against the bearer of this weapon suffer -1 to their hit rolls.

Laslock	18”	Assault 1	4	0	1	-

Xenos Deathlock	18”	Assault 2	5	-2	1	Enemy models slain by this weapon in the Shooting phase count as two models in the following Morale phase.

# Wrought by War Doctrines

## DEATH SEEKERS

These blackshields are motivated by an all-consuming drive to offer up their lives on the altar of war. Psychologically unstable, either as a result of what they have witnessed or endured or through brutally enforced psycho-indoctrination, death has become the centre of their being.

- **Inured to Pain:** **ASTARTES** models in this detachment ignore casualties from shooting for the purposes of taking Morale tests. In addition, whenever an **ASTARTES** model in this detachment suffers a wound, roll a D6; on a 6, that wound is ignored.
- **The Lure of Battle:** **ASTARTES** units in this detachment must pass a Leadership test if they wish to end their move further away from any visible enemy model than they were at the start of the Movement phase. If this test is failed, the unit moves D6" towards the nearest enemy unit, stopping 1" away. Units are not subject to this rule if inside a Fortification or embarked on a building or transport.

## ORPHANS OF WAR

Having seen betrayal, atrocity and unthinking carnage at the behest of distant and uncaring masters, these warriors are hardened veterans who have survived against the odds and now trust only in the man next to them in the line of battle. For any great cause or primarch they have only scorn.

- **Brothers Through All:** If an **ASTARTES** unit in this detachment is within 6" of a friendly **BLACKSHIELD ASTARTES** unit of at least five models at the start of the Morale phase, it may add 1 to its Leadership for the duration of that phase. If an **ASTARTES** unit in this detachment is within 6" of a friendly **BLACKSHIELD ASTARTES** unit of at least five models at the start of the Shooting or Assault phase, it may re-roll results of 1 to hit for the duration of that phase. **ASTARTES** units in this detachment may not claim any other bonus to their Leadership granted by other models.
- **No Gods, No Masters:** No detachment in your army (Blackshield or otherwise) can include **CHAPLAINS**, Agents of the Imperium or Agents of the Warmaster.

## OUTLANDERS

Seeing the depths to which both sides will sink in order to destroy the other, these blackshields have washed their hands of either side, and are now pursuing their own goals, having turned towards the path of the marauder and void-corsair to determine their fate.

- **Void Reavers:** Up to half of the **INFANTRY** units in the army who do not deploy inside a transport vehicle may be given the **Unstable Teleportation** ability in the deployment phase.
  - **Unstable Teleportation:** During deployment, you can set up this unit in the teleportarium chamber instead of placing it on the battlefield. At the end of any of your Movement phases this unit can perform a teleport assault - set it up anywhere on the battlefield that is more than 9" away from any enemy models. After setting up the unit, roll a D6; on a roll of a 1, that unit suffers D3 mortal wounds.
- **Unsanctioned Weaponry:** Any model with access to a combi-bolter in the detachment can replace it with a xenos deathlock. Any character model in the detachment can take rad grenades.
- **The Shadow of Oblivion:** Make a note of the number of **BLACKSHIELD** units in your army and share this with your opponent. Once half of those units have been destroyed, this rule takes effect. At the start of each of your turns, make a Leadership test for each remaining **BLACKSHIELD** unit; if the test is failed, that unit flees the battle and is destroyed.

## CHYMERIAE

As the age of darkness progressed, there came into being Astartes that simply should not have existed. Some were the by-blows of failed rapid impantation and psycho-indoctrination procedures, others the result of prohibited experimentation on gene-seed stock or the influence of malign forces from beyond.

- **Chymeriae Attributes:** At the start of the game, before deployment, you must choose one of the following options, which apply to all **BLACKSHIELD ASTARTES** models in the army for the rest of the battle.
  - **Tough:** Add 1 to their Strength and Toughness characteristics. Models with this ability recede their Advance and Charge moves by 1".
  - **Skilled:** Add 1 to their Ballistic and Weapon Skill characteristics (so, 3+ becomes 2+) and reduce their Leadership characteristic by 2.
  - **Furious:** Reduce their Ballistic Skill characteristic by 1 (so, 3+ becomes 4+). Models with this ability may re-roll Charge rolls and increase their Attacks by 1 on a turn in which they Charged. This unit must always consolidate as far as possible towards the nearest enemy unit.
- **Shunned and Distrusted:** You may not include any non-Blackshield detachment in your army, with the exception of Fortifications.
