

>>> Subject: Event log shift 123 of the year of Him of Terra 995.M41
>>> Conduit Necro-vox DK399
>>> Thought for the Day: Custom Scenarios are the beginning of happiness.

Subject of Lord Helmawr, heed now the voice of Necromunda!

- ++ Necromunda is fun. You should play it. Your friends should play it. Your enemies should play it.
- ++ Custom scenarios & campaigns are even more fun. You should create them and share them with your friends. Then share them with your enemies.
- ++ Once you make your scenarios you should share them at TCRepo.com. That place is cool.

>>> [Additional] Be creative. Do what you want. You control your gaming experience. No one else does. Not Games Workshop. Not your FLGS.
